SUMMARY

I am a skilled Full-Stack Developer with experience in building scalable web applications and user-friendly interfaces. Proficient in modern technologies like Next.js, React, and Node.js, I specialize in creating efficient, high-performance solutions tailored to client needs. Passionate about solving complex problems and delivering high-quality, impactful software.

WORK EXPERIENCE

Current Project: Resume Builder

Oct 2024 - Present

- Building a Web-Based Resume Builder using modern technologies like React, Tailwind CSS, and Node.js, allowing users to create, customize, and download professional resumes.
- Developed the Frontend Interface with a focus on user experience, enabling users to dynamically add sections and generate previewable and downloadable resume templates.
- Google Sign-In Authentication is the only method available and is currently under testing. If you'd like to try it, please contact me for access. [Landing Page](#)

Current Project: React Native Invitation Designer App

Sep 2024 - Present

- Developed an Invitation Designer App using React Native, allowing users to design and share invitations via WhatsApp.
- Collaborated with a 3-person team (Frontend, Backend, DevOps) and was responsible for UI/UX design and frontend development.
- Designed and developed the landing page for the app. [Landing Page](#) | [APK Test Version](#)
